JOHN FENNER originates from Hereford but has lived in Coventry and Warwickshire for the last 30 years.

He has extensive experience of the works of Gilbert & Sullivan having performed most of their operas over a 15 year period.

Since 1972 most of his appearances have been at the Loft Theatre, playing roles from farce to Shakespeare, although other commitments have limited those appearances in recent years.

Today his preference is for the tenor repertoire, but he still has a fond attachment to Gilbert & Sullivan patter roles.
